PRESS RELEASE

Trinity Designs, Inc. expands going to the next level...

(June 22, 2016) Trinity Designs, Inc. is delighted to join in on the celebration of natural hair with their newest dolls set to complete production Summer 2016. In the past their dolls have had traditional doll hair styles but there seemed to be a beckoning for this doll designer to enter a new space. They are definitely going to the next level in the designs of their dolls.

Launching this Summer are 2nd editions of their Sorority collections "Essence of a Zeta" and "Essence of Lady Ivy" and a 3rd edition of "Essence of a Delta".

Trinity Designs has quite a few surprises of their sleeves with several new products scheduled for release this Fall. We are thrilled to see that TDI is here to stay. In fact they are not only here to stay but they are expanding. The expansion includes a line of children's dolls and global distribution is in their near future.

In a strategic move to expand their customer base, TDI will now be offering Installment plans for its upcoming products. This option to pay will make it possible for many others who were unable to purchase previously. It's definitely a great move forward for the growing company. Trinity Designs, Inc. is absolutely on track to the next level and we salute this Texas based small business and look forward to what they have coming up.
